Java Developer with 5 years of experience building backend and full-stack solutions across telecom, banking, and fintech.

Skills

Java | Spring Boot | Microservices | REST | PostgreSQL | MongoDB | Oracle | RabbitMQ | OpenShift | CI/CD | Maven | Hibernate | React | JavaScript | Redux | SQL | SOAP

Experience

Software Developer

PHIRT | Jul 2025 – Present

- Developing a React-based web application with CMS functionality and API integrations
- Implementing backend features in Java, including CMS-related logic and data handling
- Working on feature development and performance improvements across the application
- Leveraging AI-assisted tools in the development process to improve efficiency

Software Development Engineer

CROZ | Jul 2020 – June 2025

Croatian Telecom (ISKON)

- Worked on a large portfolio of production applications for Croatian Telecom (ISKON)
- Developed and maintained Java-based microservices on OpenShift using Spring Boot
- Used MongoDB, PostgreSQL, RabbitMQ, and ActiveMQ for data storage and messaging
- Contributed to frontend development using React and TypeScript
- Implemented observability using Jaeger, Prometheus, Sentry, and ELK
- Supported CI/CD pipelines using Bamboo, Nexus, and GitLab

Raiffeisenbank Austria:

- Developed and maintained the Cards-Core system for credit and debit card processing, installments, and loyalty programs
- Built backend features using Java and Spring, integrating Kafka, MQ, and REST APIs

- Delivered system improvements in a regulated banking environment

Telenor Serbia

- Developed backend functionality using Java EE
- Worked on bug fixing and implementation of new features

Software Testing Specialist

CROZ | Dec 2014 – Jun 2020

- Performed functional and regression testing on a large portfolio of banking applications for Erste & Steiermärkische Bank.
- Automated UI and API test cases using Tricentis Tosca; created, maintained, and executed test cases with a focus on improving coverage and reliability.
- Validated defects, opened tickets, and provided detailed reporting to development teams.
- Collaborated with business users to support user acceptance testing.
- Worked with DB and DWH experts to verify data accuracy and batch processing results.
- Delivered clear test reports to stakeholders, ensuring high software quality and reliability.

System Administrator

I&D COM | Nov 2012 – Nov 2014

- Maintained IT infrastructure and provided technical support for internal systems.

System Administrator

Mega Biro | Sep 2010 – Oct 2012

- Provided IT support and administration of internal networks and systems.

Education

Belgrade Business School | Bachelor's Degree in Information Technology | 2006 – 2010

Languages

English – Fluent (spoken and written)

Serbian – Native
